Subject: PDE01466_Formal objections re LSAP &AVLAAP
Date: 15 November 2015 12:42:50

Dear Sirs

HG2-41,42,43

As a Horsforth resident of many years i wish to object in the strongest possible terms to the above sites being considered for removal from protected Green Belt status.

In my opinion the are inconsistent with National Planning Policy Framework,Leeds Development Plan policies.

In addition following a visit to one of the road shows I came away thinking the whole process was designed to obstruct meaningful objections by ordinary members of the public.

I am not a NIMBY & we have already identified a number of suitable sites for development in a previous consultation.

Our Greenbelt is precious in giving clear identity to communities & Townships in this part of the Aire valley & giving people living in these already crowded communities easy access to green space for recreation & well being.

I hope you will think again & reject them from the development proposals.

Yours Faithfully

Paul M Shagouri
