Hi Cllr Payne ,

We had a conversation with you at one of your Saturday morning presentations in the Co-op, reference the proposed development to the east of Brigshaw lane.

I have drafted and attached a word document, which I believe contains some valid reasons against this proposal.

Could you please include my letter and my protest against the new development at any consultation meeting you attend with Leeds City Council.

Very Best Regards,

Ian & Christine Ackroyd.

For info, I have replied and said they need to send in to the site allocation consultation. Interesting they have picked up on the. Kippax design statement and Potential open space site
