Subject: PDE01515_Proposed new house developments in Bramhope
Date: 15 November 2015 10:16:22

I hope that the Council will decide to permit the building of a substantial number of new houses in Bramhope.

I look with envy on the number of new dwellings going up in surrounding areas, Otley especially.

New housing should be mixed - not just the millionaire places that have been built in recent years. There should be a high proportion of affordable homes. There should also be a good number of small modern homes that Bramhope residents can retire to without having to move away.

Any large expansion of the number of homes would need to be accompanied by an increase in associated services - medical, primary schools, road capacity and design, bus services, shops. I'm sure that the City Council Planners will allow for these things in their overall plans for NW Leeds.

Please don't let Bramhope just stagnate and fossilise. It has ceased to be dynamic, and expansion of the right kind could bring fresh impetus that is greatly needed.

John MacArthur
Bramhope Resident.
