## Public Consultation on Leeds Site Allocation Plan

I live at Gragg Mount, Woodlands Drive, Rawdon LS19 6JZ.

I wish to object to the proposal to allocate Site HG2-12 specifically, and the other sites close to the A65 Road, as proposed development.

I support the other objections being made to you and now make this objection on the grounds that traffic flow on the A65 road is presently intolerable for major parts of the day and would become almost impossible to access from Knott Lane without fully justified plans incorporated into the Site Allocation Plan. It is simply not acceptable that allocation of land for development be made without fully acceptable access plans included.

Yours faithfully.

Richard Squires.
