I write to object to the building on greenbelt in Rawdon and hosforth. They are invaluable assets to the area especially when areas of brown belt land have not been exhausted they have great uses for leisure and walking these need to remain for future generations there must be other parts that would not cause the disruptions that these proposals would. Also these are against the Leeds core strategy and national policy Services are stretched in this area and these in particular would diminish everyone's enjoyment of the area

Nigel Sambrook. 15 Henley crescent, Rawdon.
