Message : No to the unsound housing development on green field sites around Horsforth. HG2-41 and HG2-43 in particular will have a significant impact on the A65 and the local ecology. Any further impact on the A65 and the Horsforth roundabout will be disastrous for the area. Traffic is already at a standstill in rush hour for those commuting through the Rodley and Horsforth roundabouts. It has been suggested that these proposals will add 3,000 extra cars to a stretch of road that is already nearly impassable at certain times of the day. No to loss of green belt, no to extra housing besides the A65 and Horsforth roundabout and no to a new school next to the roundabout.

Thanks
