Dear SAP

I am writing to object to the allocation of Tetley Sports Field and Paddock for housing:

1. It is green belt
2. It is in a conservation area
3. It forms part of a well-used circular walk from the gates of Meanwood Park, through the Hollies and back again thus adding greatly to the amenity of the area
4. It is close to Meanwood Beck which contains the threatened crayfish and which has already been polluted in the past because of the inability of the sewerage infrastructure to cope with storms
5. I do not believe the developer proposes to build affordable houses for first time buyers and this land exceeds the allocation required for Leeds to fulfil its house-building obligation in any case
6. Leeds should be looking at brownfield sites not trying to take away the lungs of the city
