Dear Sir / Madam,

As part of the Leeds Site Allocation Plan public consultation process, I would like to formally object to the proposed development of the following sites:

HG2-43  
HG2-42  
HG2-41

It is my understanding that the proposed development sites are NOT consistent with the national policy, specifically with regard to Green Belt. Leeds must continue to protect our Green Belt and greenfields.

The fields and open green spaces, which are being proposed for development, are important to me because we have a young family and it helps us with exercise and gives us a general feeling of wellbeing to have these green spaces around us. My child loves wildlife and it's important for us to protect their environment now and in the future.

These sites should continue to be part of Leeds' 'Strategic Green Infrastructure' as identified in the Adopted Core Strategy.

It is my understanding that the proposed development sites are NOT consistent with the national policy, specifically with regard to infrastructure. Leeds has insufficient policies in place to address the issues that these developments will generate. Development and infrastructure requirements must be considered side by side.

Development of these sites on greenfields will lead to nearby villages being engulfed within the 'Main Urban Area' and they will no longer be separate 'Major Settlements' of their own. Reference, Adopted Core Strategy (Map 3, Settlement Hierarchy).

My concerns include Horsforth schools which are already fit to burst, so an influx of extra children will only cause more of an issue for my child and any further children. I am also worried about the extra traffic, which not only effects the environment, but also commuting around Horsforth, to work and also is a safety concern for my children.

Please keep me informed of the public examinations, submission of the plans and potential outcome of the review as I would like to retain my right to attend and speak.

Yours faithfully,

Sian Stowell
