Dear sirs

I feel I need to email you with my concerns re planning application to site HG2-10(1221) Gill lane.

I feel that if the planning was to be approved the local area would not be able to cope with more cars on the road which is grid locked as it is at the moment. Schools would not be able to cope with more children coming into the area, doctors with not enough time in the day to cope with more patients.

Also the out look from the back of my house would be greatly changed, from having a great view we would have to look at MORE houses that the area can't cope with ,we would also not have the same amount of natural day light that we have at the moment.

So please do not approve these plans as this area will be greatly affected.
