Dear Sirs,

Site references; HG3-2 Knott Lane West, HG3-3 Knott Lane East and HG3-4 Layton Lane are close to the area I live in and I find it incredible that Leeds City Council can even think about building on these sites! Think about the Wildlife, think about the traffic, think about the infrastructure! We do not need all these new homes that Leeds City Council are thinking of but what we do need are more dentist, doctor's surgeries, schools, chemist and community centres. This is not just a case of 'not in my back yard' but more a case of WHY? There are more luxury houses being built around this area than ever before and we do not need so many luxury homes. What we do need are starter homes, homes that people can afford to buy, people who are trying to get a foot on the housing ladder. My grand-daughter lives with me because she cannot afford to even think about buying a home yet. Prices of existing homes are just too high but if Leeds City Council were to build homes that young people could afford then that would be more acceptable to the majority of people here in Aireborough!

The publicity surrounding the above site references has been very poor and I would be obliged if you would keep me informed on any future planning meetings in this area. Thank You.
