To Leeds city council

Will you please not build houses on the fields on coach road or the allotments on the Silverdale avenue because we already have a busy road nearby and we don't need another. I don't agree on building houses because I live in a quiet estate and we don't need noise. Also horses and sheep live on in the fields and if we build houses on there we are taking their homes for ourselves.

I hope you think about the reasons I have given you.
