---

I am writing to object to the building plans for church lane paddock in meanwood. This is a beautiful piece of land,perfect for our disappearing wildlife,the site is next to the historic grade 2 listed church,on a road that is already overused. Leeds is already been 'spoilt' by so many new developments, meanwood thankfully still retains its village atmosphere,new housing on this site would ruin that. We need to retain and maintain these small bits of land,to make our local places unique and to ensure wildlife habitats. Please, please, no building on it.

Yours hopefully
