Dear Sir/Madam,

I am writing to object to developments on the sites referenced above. This is a disgrace and needless building on Green belt land. The objections are listed below:

1. It appears greenbelt land is being build on before brown field; this is unacceptable.
2. There will be a loss of community identity, the city is currently made up of number of wonderful small villages, such as Horsforth, Pudsey, Rawdon. Please

do not merged these villages together.

3. These sites are not going to build the houses people needs. Leeds needs affordable housing, not houses valued over £300K

4. This whole process as been kept very quiet and feels like Leeds Council/developers are trying to build on green fields without anyone noticing till its too late.

I have objected to sites that mean something to me but I cannot stress this enough, building on Green Belt is morally wrong. Leeds is a great city because of all the green space and natural habitats, not overpriced housing.

Yours faithfully

Gareth Fradley
