Dear Sir

Further to the developments listed above I would like to register my objection for the following reasons.

This area is green belt/conservation

Leeds Road cannot take more cars - it takes around 30 minutes to travel from Knott Lane to the roundabout in peak times already.

Currently there is deer, bats, owls, lapwing - all will be lost

There are so many brownfield sites nearby that could be used - why haven't they been looked at?

There is already a demand for local schools and from what I understand places are limited as it is.

Access onto the A65 from all these sites is just not sustainable

These developments will not be effective. They are not justified. They are legally not compliant. They are not prepared in accordance with the NPPF.

Do not let these developments go ahead.

Yours faithfully

Patricia Henderson
