Dear Sir

Sites - HG2-12, HG2-41 , HG3-2, HG3-3, HG3-4

I object to all the sites planned for development listed above

All the developments are unsustainable.

Wildlife will be lost.

The A65 is way too busy as it is - constant traffic jams and queues

These are conservation areas and green belt - where wildlife habitats will be lost.

The access road from Knott Lane cannot cope with that amount of traffic - sometimes have to queue 15 minutes as it is after a funeral leaving the crematorium.

There are also protected trees in these areas.

The council say that growth is the exceptional circumstance - it is not!!

Why isn't brownfield being targeted - there are so many sites available.

Yours faithfully

James Heaton
