Dear Sir,

I am emailing to respond to the Leeds Site Allocation Plans.

The site I am objecting to is HG2-43(5009)

The reason for my objection is that the plans to build on the green belt contravene the national policy framework (NPPF)

I am particularly concerned that the development would add massively to already overcrowded roads in the area creating an increasingly dangerous and unpleasant environment for Local residents. Travel times for commuting local residents would inevitably increase and the roads would become even more clogged up than at present.

In addition to this the proposed development would take away more of the ever diminishing green spaces and open countryside we so much enjoy which must be cherished and protected. Having lived in Horsforth for 78 years and witnessed massive changes taking place over this time I do not want the area to become even more overpopulated. Why do we need to do this and why is the Horsforth area bearing such a high proportion of the proposed house builds in North Leeds?.

I also have concerns about the effects on our local schools, hospitals and medical facilities, etc , which are already under tremendous pressure to cope.

Please register my objection to the proposals in the strongest possible terms.

Yours faithfully  
Jean Rothwell
