Dear All

I sent this email through and was quite disappointed when I received no comments back from you, no wonder as I neglected to copy you in on the email! I would be really happy for any comments and if you have any questions please let me know.

best regards

Allison

Dear All

Please find attached the Consultation response I intend to submit on behalf of Sandgate residents, finally managed to type it with my one hand!

After much thought I decided to stick to specifically commenting on the Sandgate site and not others and not commenting on the wider plan as I believe this best services the purpose of the resident group. As you can see I have basically supported the council as in respect of this site we don't want it to be allocated for housing which is the current decision. We need to be in this defensive position for when Persimmon challenges the decision in their response which undoubtedly they will.

I am happy if you choose to resend this to Leeds as a member of Sandgate residents to show that we do indeed have a relevant membership and copy this email address in please. if you have any comments please let me know too.

I would also suggest that you send in a response in your own words which may include other sites and comments relevant to your using the paper form or your own words. I will be sending in a further submission from just me on that basis which I am also happy to share.

Please feel free to share and post on any relevant sites facebook or otherwise

thanks

Allison
