Subject: PDE01772_Housing in Rawdon & yeadon
Date: 13 November 2015 15:39:15

I have been looking at .the map publish by Rawdon parish council & agree that these sights should not be built on not only for the reason given by the Parish Council but the whole infrastructure of this area. When you drive out of Leeds to Menston after 4.30 it can take up 1.1/4 hrs which will inpacks on us all with people trying to find a way round through housing estates, this traffic problem as been talk about for years & nothing done so the alternative is to walk which should be an healthier option, but no you end up with a dry mouth & some times your clothes smell. So please sort the roads & rail out for all this area including the airport & Otley before building any more housing.

Also what impact will these houses have on schools,fire service,ambulances,doctors surgeries,dentist & all the other services not forgetting day care, home help & charities which give a great deal of assistance to older people & the disabled.

In conclusion should we be looking to take some green belt like they did in the sixties & build some new towns &stop these concret jungles getting any bigger or at least rethink at other way To stop the urban sprawl, Because if every one drove their cars out at any one time no one would move.

Yours sincerely

Bernard Harrison.
