I am writing to let you know my comments on the proposed development on site HG2-10/ Site 1221 A65/Gill Lane Fields.

I have been living in the area for a couple of years now and in that time I have had firsthand experience of the following constraints to the area:

The schools are at capacity.

The Doctors are oversubscribed.

The roads always have long tailbacks.

Adding more houses and people to the community would not improve this situation at all.

And once the 'Greenery' is gone, it's GONE! Wouldn't there be better urban sites in Leeds that would welcome a redevelopment rather than reducing the natural landscape further?

Please keep me informed on all decisions relating to this site and its proposed development. I would also be interested in knowing when any future hearings are as I would like to attend.
