Dear Sir

Objection - to site plans HG2-12 Woodlands Drive, HG2-41 Rawdon Crematorium, HG3-2 Knot Lane West, HG3-3 Knott Lane East, HG3-4 Layton Lane

I wish to object to all the plans listed above on the following grounds:-

Greenbelt and conservation area will be lost forever
Priority Wildlife habitats will be lost - all sites contain protected trees and woodland
Farmland lost
Brownfield sites should be used for housing - not green belt and conservation areas
HG12-12 has been allocated even though sustainable appraisal scores 7 - the worst of all nearby sites and only has one access point Also, this site has severe surface water flooding
The A65 is currently a bottleneck for traffic - the Horsforth roundabout/A65 beyond it cannot cope with extra cars
Schools are currently oversubscribed

Your proposal is totally unsound and not in accordance with the NPPF - especially protecting green belt, conserving natural environment and historic environments

I have lived on Underwood Drive for the past 42 years and am outraged by your intention to build in this area, when there are so many other alternatives that would suit mass development

Yours faithfully

Patra Heaton
