Subject: PDE01853_Proposed planning in Horsforth and district.
Date: 13 November 2015 11:18:29

I would like to to make my concerns known re the proposal of houses being built in the Horsforth area, also extra sites on the A65 corridor route to Ilkley.

GREEN BELT LAND must surely mean just that in order to keep our area the village it is (was!)

I refer to sites HG2-41, HG2-43, HG2-12, HG3-3, HG3-4

These proposed sites go against the Leeds Core Strategy. Let us keep Horsforth special and not over developed. We would like to have something that resembles the area we were fortunate to enjoy, for the sake of future generations.

The area is not viable to take even more traffic which of course it would dramatically cause, having hundreds more houses built.

Also schools are struggling now to accommodate OUR local children, likewise Dr's and many other facilities.

I just hope there is someone out there who sees sense in all of this over development and acts in accordance.

Yours faithfully

David Hemsworth
