Subject: PDE01884_Proposal to remove Greenspace land status. - Weetwood Avenue
Date: 13 November 2015 08:45:01

Dear sirs,

I would like to strongly object to the proposed allocation, of the land off Weetwood Avenue.

This site has always had the status of, not considered suitable for allocation of housing, until the Development Plan Panel's meeting in January this year.

It has always had protection under the councils own Planning Policies of protected pitches, Greenbelt urban corridor, it is in the Weetwood Conservation area.

It is a beautiful, peaceful, wild area and it should continue to be so for future generation's to enjoy. There are not too many of these urban spaces left.

It has become obvious that there is a link between the said piece of Land and the redevelopment of The Headingley Stadium and I feel strongly that it should not be used as a bargaining tool or funding package for the on going Development of Headingley Stadium.

Paul Caddick's property business states record profits, the monies could be found elsewhere, leaving this Greenspace/Greenbelt as it should be, to nature and the recognised Wildlife value it supports.

Regards

Sue Monkhouse
