Dear Sir/Madam

I wish to object to the proposed plans HG-2-49 3376 on the paddock adjacent Meanwood Park. This area does not need further development with the associated increased house density, cars, and potential impacts to the green space. Plans for residential development should be confined to brownfield sites, rather than impact what is left of precious green space close to a public amenity.

sincerely

Professor Paul Routledge  
resident, Castle grove Avenue.
