Dear sir or madam,

I am writing to object to what you want to do to the fields I think it is a very bad decision. I think you're literally are ruining Yorkshire it is well known for its beautiful views and you want to build on them! These are a few bullet points about why you should NOT build on the fields:

- . My house is literally right next to a field and up the road to another which look very pretty which will ruin the view. Also filled with horses , cows and sheep and they or their kids will have to move out.

- . The traffic is already really really awful and having another 155 houses and quite a lot more will make it more than double the amount of traffic which will make children and adults have to wake up at about 5 am to get to school or work on time which will actually make them dreadful at what they supposed to do.

- . Schools won't have enough spaces for every child so some kids won't have to go to school for a few months which their parents defiantly won't be happy with!

- . There is some pretty rare trees in the field by my house including red oak and old railway poplar.

- . There are loads of wildlife which will die and do you want owls , bats , rabbits , hedgehogs and loads of other innocent animals to die is that what you really want to happen?

So please please please please please please please please DO NOT build on these fields I want Yorkshire to be known for its beautiful fields and DEFIANTLY NOT for its big cities!
You must realise you are making a terrible terrible choice!
