To whom it may concern,

We strongly object to the plans to develop the church field adjacent to Church Lane, Meanwood on the grounds of;

The area is already saturated with housing and there are very few open spaces left.
Traffic in the area is already bedlam mornings and evenings as its used as a rat run/cut through.
The development will spoil the view for all concerned towards the beautiful church building and grounds.

To put 25 dwellings on such a small plot is ludicrous.

Access from where???

When a wedding or christening takes place the main road is lined both sides on occasion with guests, more traffic/access points would make it ridiculous.

The area in question is very wet in the winter months due to a natural spring, would you live there?
