The plan to allocate the Church Lane Paddock for 25 dwellings is not justified for many reasons.

The Paddock is the last remaining green space set within the residential area (as opposed to Meanwood Park which requires a decision to visit). The Church and Paddock compliment each other and losing the Paddock to housing would damage the whole area irreparably.

The Paddock is a haven for wildlife because the public cannot walk on it. But we can see it and that is important to us.

Extra car traffic would be generated which would make less likely that children would walk to the local school on Green Lane. There is already more traffic caused by Waitrose.
