Message : SITE PLANNING Some links on webpage aren't working so I'm sending this mail. I'm in LS16 5ND and some of our greenfield sites are under consideration for buildings. I'm very opposed to building on any green sites anywhere. I am most concerned about the impact on the environment and wildlife, which seems to be the first concern to be dropped under any pressure. I agree with Population Matters that this world is overcrowded with people, I welcome falling birthrates where they exist, and Leeds is heaving with people already. It would also be a good idea for new buildings to have green roofs, and I'd like linked passageways for wildlife to be maintained, or installed if current links are inadequate.

Thanks
