**Subject:** PDE01930\_Horsforth development objections  
**Date:** 12 November 2015 20:29:14

---

I am writing to object to the proposed developments HG2-41 and HG2-42 the plan is not positively prepared and the development of greenfield site goes against national policy. Removing the site HG2-41 from green belt would be entirely unsound and illegal as has not been subject to previous consultation.

I for one treasure our green spaces we live in a busy world and our family take solace in the strawberry fields and surrounding area.

The A65 cannot cope with further traffic. I leave home before 7am to try to avoid the gridlock of cars its becoming busier day by day. It will end up as one huge sprawling traffic jam from Horsforth to Rawdon.

This development would have far reaching detrimental effects upon our community in a city where there are brownfield sites which could be used as an alternative.

Treasure our greenfield sites, do not break the law and go against national policy. Think of the future.

Yours sincerely  
Jo Wilson
