Leeds Site Allocation Plan  
Section HG-2-1 (3026) New Birks Farm, Ings Lane, Guiseley

Dear Sir

This email is to inform you that I disagree with plans to use this site for residential housing.

Plans for neighbouring areas have not been taken into account when considering the overall impact of traffic volume on the already congested A65. Access via Ings Lane at both ends is liable to cause bottlenecks.

The proposed area of Green Belt serves its purpose to define the boundaries of Guiseley and Menston, preventing 'urban sprawl'.

Aireborough has already seen a large amount of new properties built in recent years, and it is questionable whether local facilities can cope with a further increase.

I urge you to consider these points when making your decision.

Yours

Nicholas Oliver
