Dear Sir/Madam

Re: LEEDS SITE ALLOCATION PLANS - FORMAL OBJECTION

As part of the public consultation process for the above site allocation plans I would like to formally object to the proposed development of the following sites:

HG2-12 / HG2-41 / HG2-42 / HG2-43.

I understand that the proposed development sites are NOT consistent with the national policy framework. Leeds MUST continue to protect our Green Belt and greenfields.

The fields and open green spaces, which are being proposed for development, are important to me as I used to live in Horsforth and still visit on a regular basis to take my sisters dog on walks. Also as a nature lover I feel very strongly about the preservation of the natural habitat and wildlife in the area.

These sites should continue to be part of Leeds' "Strategic Green Infrastructure" as identified in the Adopted Core Strategy.

It is my understanding that the proposed sites are NOT consistent with the national policy, specifically regarding infrastructure. Leeds DOES NOT HAVE sufficient policies in place to address the issues that these developments will generate. Development and infrastructure requirements should be considered side by side.

Development of these sites on greenfields will lead to nearby villages being engulfed within the "Main Urban Area" and they will no longer be separate "Major Settlements" of their own which would be a travesty.

My concerns are that the area will become irreversibly transformed for the worse by the influx of people and traffic, with a strain on local services and infrastructure. The locality will lose the character, appeal and village feel that encouraged many residents to move here in the first place.

Please keep me informed of the public examinations, submission of plans and potential outcome of the review as I would like to retain my right to attend and speak.

Yours faithfully

Julia Lee
