To whoever it may concern

I wish to formally object to the development of sites HG2-1 up to and including HG2-12 as stated as part of the Leeds Site Allocation plan.

I understand that these proposed development site are NOT in line with the national policy regarding Green Belt sites and we must protect Green belt and Greenfields in our area. The green spaces are an important part of our community and for our children, wildlife and environment and should continue to be a part of of Leeds' 'Strategic Green Infrastructure Strategy'

In my view, there are plenty of brownfield sites in the Aireborough area that could be developed. It is also my understanding that the proposed green belt development sites are NOT consistent with the national policy regarding infrastructure.

I live in an area surrounded by small villages that, should the green belt developed plans go ahead, will be engulfed within the main urban areas and will no longer remain separate settlements.

I would like to be informed of any public examinations, planned submissions and outcomes of the sites and would welcome the opportunity to to voice my concerns further.
