Subject: Re: Phoenix Avenue site for Travelling Showmen

Hi Martin

Just a quick email regarding the proposed Showman's site at Phoenix Avenue we already have a good knowledge of the surrounding area .
After visiting the site we feel it would be a ideal location for our new site to be developed being just a short journey away from our main business in Roundhay Park where we run a children's Fun Fair and our Land train.
The site would also make a great base for our family's travelling Fun Fairs which we operate in and around the leeds area for the majority of the year.

The site would also be ideal as a temporary base for showmen visiting the area throughout the year thus eliminating illegal parking throughout the city.

As you may be aware I am A Leeds based showmen Born in the city and I've always wanted make it my permanent home I'm currently living in Doncaster on a site which we have out grown my daughter got married in July and as had to move to Nottingham My son is due to get married in the new year and we cannot accommodate him here at this site as we are already overcrowded we are a very close family and do not wish to be split up all over the country.

The site would also assist us through the year as at the moment every weekend and school holiday I have to make the journey to Roundhay Park with my children's Rides in two vehicles which equates to around 200miles a day being in leeds would save me time and reduce my carbon foot print.

Regards
S Pullen
