Dear Sir,

I would like to express my concerns about this possible housing development .

I feel there are many reasons why I believe this development shouldn't go ahead , the main one being that the infrastructure simply cannot withstand any more pressure. The road in front of this site is already at a standstill or crawling along & that's before you build another 120 houses there. With the development of further housing at Appleybridge & Horsforth – soon the whole of the A65 will be at a standstill... where do you expect all this traffic to go ??

Secondly I feel strongly that you shouldn't build on this site as It will merge Nether Yeadon into Guiseley .

According to English Heritage this area should be included with the conservation area that is planned for Nether Yeadon – why has the planning Dept decided that it shouldn't be ??

I leave these thoughts with you .

Many thanks

Miss Smethurst.
