LDF Consultation
Forward Planning & Implementation

11th November 2015

Dear Sir or Madam,

No development of the Greenbelt and Allotment Sites HG 2-5 (Coach Road) and HG 2-6 (Allotments) should be considered until the present problem of access to the Silverdale Estate has been resolved.

Silverdale Avenue is currently the only access road; but half the houses at the Park Road end do not have off-street parking. This means that the other half of car owners park on the roadside. This subsequent weaving in and out of parked cars makes the road single-lane.

An extra 150 cars , plus possible school traffic, could cause chaos.

The solution is to make good the Coach Road before building more houses.

Yours faithfully,

Barry Teasdale
