Ref: Building on Green belt land

Dear Sir,

I would like to object to the proposed building of new homes on Green Belt land in and around Rawdon. We are particularly concerned about sites:

HG2-41

HG2-43

HG2-12

HG2-2, HG3-3, HG3-4

We feel this is not consistent with national policy and that brownfield sites should be used first. The proposal to use this Strategic Green Infrastructure goes against the Leeds Core strategy.

We have lived in the area for over 20 years and regularly walk our dog (and children) around the proposed areas for building. It is an important resource for future generations which could not be replaced once destroyed. The plants and animal life are crucial to health and wellbeing.

Yours sincerely,

Dr Clare Brennan
