Moortown Golf Cub Moortown Leeds 17
Land at Gleneagles Road Ls17 Ref.SHLAA5173

I am member and Past President of M.G.C.and have been asked to advise and write on its behalf

concerning the above.

The area of land in question forms part the Club's ownership but due to the redesign of the course

is now surplus to requirements/use and therefore can be made available for residential use. It has the benefit of access from Gleneagles Road and Turnberry Drive and all drainage and service facilities therefore eminently suitable and available for residential development being adjacent to existing established housing.

I understand that the land is not zoned as green belt as such and could be allocated for additional housing in this well established and popular area of North Leeds.This provides an opportunity to satisfy in some way the requirements for expansion in a most convenient way with the minimum of problems.

I respectfully request that this opportunity be grasped and the land zoned for residential use.

Yours

Brian Robinson F.R.I.C.S.
