Reference: HG2-41, HG2-43, HG2-12, HG3 - 2, HG3 - 3, HG3 - 4

Dear Sir/Madam,

I am writing to object to the planned development to the above mentioned sites. At present the existing road and rail infrastructure surrounding the proposed areas are already heavily contested. The improvements to Horsforth Roundabout have only served to increase congestion on local roads further. In addition, local trains to and from Leeds are already at standing room only at peak times and in some cases it is not possible to get on a train at all. Increasing local housing will only serve to worsen this position further. In addition there is already a high level of pressure on local services and amenities such as children's services and school places.

Regards

Rachael Dyson
