Response to SAP Consultation

I feel that the Plan is not sound. It is based on over ambitious housing which is aspirational rather than actual housing need.

The public have not been fully consulted at all stages of the process. Sites that local residents might have preferred were sieved out.

The two Kiddal Lane sites 3452 and 3453 further up the A64 may well have been preferred particularly by the residents of Scholes. One is Brownfield and there is easy access on to the A64 and from there to motorways. There should be consideration to making these PAS sites .

I feel the East Scholes and Wood Lane sites should remain PAS sites. Consultation could be held with the builders I consider Kiddal Lane as alternatives .

Headley Hall if the University do not want to bring it forward at this time will be undeliverable but consideration to making this PAS could be given.
