Dear Sir,

I write to object to the scope of the development at HG2-41.

This is far too many houses in too congested an area. The infrastructure in this area cannot cope already.

The A65 will be burdened further by developments all along the Aireborough corridor.

I am all for using some green belt when the housing crisis is as great as it is but the scale is ridiculous(700+) 20% of this allocation is the maximum.

Green space development should be planned to allow access for suitable recreation and access to a healthy environment for existing urban developments. Within this area is the well used and particularly pleasant rural environment of Bar Lane an ancient route down to the canal used by walkers and local families.

Please reconsider the scope of this development.
