I am emailing to express my concern about the proposed plan to develop the above site for 155 new dwellings.

We moved to Leeds from Manchester in 2013. One of the reasons we chose this specific location was because we felt it wasn't over developed and relatively green for a large city suburb. We have a son who was attending primary school when we moved and we found it extremely difficult to find a school place for him as all the local schools were over subscribed. We were therefore offered a place in Guiseley, which wasn't ideal as we would have preferred to have walked to school. Where are all the additional children going to be educated if we found it so difficult to find a place for just one child?

Another huge problem in the surrounding area is the traffic. The roads are already extremely congested, much more so than those around our old location in Manchester as there were more dual carriageways and a motorway network to deal with additional housing. With so many new houses in Guiseley already we feel that the roads can't cope with any more residents, most of whom will be commuting to work.
