Site HG2-10 (1221) Gill Lane

Dear Sirs

I wish to object to the Site HG2-10 (1221) Gill Lane allocation. Plans to build 155 houses on A65/Gill Lane green belt fields.

I wish to object on the following grounds:

There are still ample brownfield sites available to build on first before any green belt land should be used. This is green belt land which needs saving.

The A65 is at capacity and cannot take any more traffic. Traffic is at a standstill at rush hour times in the morning and afternoon. Made worse by the lights on the Horsforth roundabout, which are waited towards the ring road traffic.

Doctors, Dentists and Schools are all full to capacity and have no vacancies for new patients and pupils of all ages and there are no plans to build additional Schools, Health Centres and provide more Dentists.

The infrastructure is unable to cope now. Buses and trains are full to capacity and there are no plans to put on extra trains or buses to cope with the extra passengers.

Local wildlife (Owls, Woodpeckers and Bats etc) will be affected by the loss of their habitat. There are also rare mature English trees on the site that need saving.

There are a number of listed buildings on the perimeter of the proposed site which would be affected by new buildings.

The site is adjacent to a conservation area, which would be affected by any new buildings.

There are still a number of houses to be built at High Royds, Menston , also some new build has not been sold and still awaits residents. We do not need more houses when existing houses still lie empty.

Drainage on Gill Lane will be affected. When it rains the lane is like a river.

Gill Lane is very narrow and is not built to take large volumes of traffic.

For all the reasons above I wish to object to the plans to build 155 houses on A65/Gill Lane Green Belt Fields. Please take my comments into consideration when making a decision on this site.

Yours faithfully

Alison Davis (Mrs)
