I wish to object to the above 2 planning applications on the following grounds :
The vehicular access to the Silverdale /Bransdale Estate is wholly inadequate.

There is only one narrow entry road with cars parked both sides of the road.
Guiseley has had numerous new developments in recent years and the infrastructure cannot cope. The A65 is congested from Menston to Leeds City Centre, unlike routes in from the west and east of the city, A65 is a single carriageway.

Leeds City Council has not carried out a fair greenbelt review.
