---

I would like to raise an objection to the proposed plans for houses on the A65/Gill Lane green belt fields.

My main objection is the strain on the already overloaded infrastructure. The A65 is already very busy especially at peak times but the number of cars that would need to access the road from the proposed development would increase this considerably.

I queue every day on the A65 as I start my commute to work and with extra cars this will only get worse .

Our schools, doctors, dentists are already stretched without adding to the population in this area. So please accept this email as my objection to the plan.
