**Date:** 16 November 2015 13:40:35  
**Importance:** High

---

To whom it may concern:

I wish to raise objections to the following protected green belt sites, listed within your Leeds and Airedale Site Allocation Plans; and ask that they should be removed from the selection process:

Proposed Green Belt Sites that I wish to protect includes the areas surrounding the Silverdale housing in Guiseley:

My grounds for opposition include the following considerations from the National Planning Policy Framework:

- Housing targets are not an exceptional circumstance needed for destruction of green belt.
- There is a major lack road development and infrastructure in the areas in which they are located
- Leeds City Council's housing targets should be met by brownfield site developments, there is enough redundant land without developing the little green belt that remains
- The green belt needs to provide habitats for wildlife and protect them from isolation
- The above green belt provides us with a method to access and enjoy the countryside
- If required, the housing target should be capped in line with the need to protect green belt sites
- Large proposed green belt sites do not justify proposed developed, in advance of brownfield sites
- The above green belts provide separation between the communities which they currently divide to prevent urban sprawl
- The above sites provide me with unique landscapes and views which I do not want to lose
- There has been inadequate co-ordination with local councils to share housing targets
- There has been inadequate pressure on developers to build on existing brownfield sites

Please keep me informed of the outcome and process for de-selecting the green belt sites, in line with my wishes, shown above.

Yours faithfully,

*Andrew*
