Dear Sirs

I would like to object to the proposals to construct 2,300+ homes in Aireborough.

I cannot support this scale of development, especially without any planned improvements to the road network, schooling and other necessary services such as doctors. The sheer volume of development in Aireborough over the past 15 years without any improvements to infrastructure, extra services and additional school places means the area is already under serious pressure.

I understand that most of the houses are planned to be built on green belt land and I do not believe that exceptional circumstances have been demonstrated.

Most of the suggested sites seem to have similar issues:

- Significant highway impact
- Ecological issues
- Conservation areas and listed buildings would be affected
- Unsustainable locations
- Access issues

I trust my views will be considered as part of the consultation process.

Kind regards

David Singleton
