Good evening

I am emailing to regards planning sites mainly HG2-10 (1221) Gill Lane also HG2-12 / HG3-2 / HG3-3 / EG1-5 / HG2-41

I am concerned you maybe wanting to build on green belt land & is adjacent to a conservation area also several trees which are home to wildlife and may result in urban sprawl which isn't I don't think is good for the area. I also feel there could be better urban sites elsewhere in Leeds and unsure wether these have been completely explored other possible sites.

Also local school are already full and dentists and doctors surgeries are also full not to mention the traffic already at stand still at times.

I therefore would request you reject these plans please.

Regards
