26, SHAW LODGE GARDENS,
GUISLEY,
LEEDS.

Dear Sir,

I having lived in Guisley all my life, I have observed that the building of houses in the area has never stopped. How much longer do we have to put up with the pollution, digging up of roads, damage to herbs etc. For example just look at the site on Queensway, cars and lorries block the road, verges are damaged, the roads are dug up and my property is covered in dust blowing from the site, and that is a small site. Springfield site is the same. Houses are being built but we have the only town in the area! (Country) to have no park.

Commuters using the station use Guisley as a car park. The main road is blocked causing one way traffic, Netherfield road, Guford road in fact all roads have parked cars. The car park at Springfield is full all day, with commuters and is supposed to be for shoppers. The Doctors surgeries & Schools are overwhelmed. Enough is Enough, no more house building should be allowed until the existing problems are addressed.

Yours sincerely
K
