15th October 2015

Dear Sirs,

Site HG2 - 15 (3400)
Site HG2 - 16 (1002)
Site HG2 - 17 (1080 & 3367A)

I write to register my objection to the plan to build a total of 441 dwellings in Bramhope under the references given above. This would mean some 25% increase in the size of Bramhope and in the process totally change the character of Bramhope.

The site includes green belt land and will require additional services, such as schools, which will presumably have to be built on green belt land also. This is very unlikely to happen which will mean that children will have to be transported to school and the other facilities along the already very busy and often congested A660. There is a lack of public transport serving Bramhope which will result in an increase in traffic which the A660 is not able to accommodate without severe problems of increased congestion.

These sites in Bramhope are not suitable for the number of dwellings proposed and will cause untold misery to motorists on the A660. This misery will not be limited to the residents of Bramhope but will affect all users of this important highway into and out of the City of Leeds.

For the sake of those motorists and the existing residents of Bramhope I sincerely hope that you reject this application.

Yours faithfully,

M.J.Wilson.
