Leeds LS2 8HD.

Dear Sirs, Sites HG- 2,3,4,12 & 41.

I wish to register the strongest possible objection to the allocation of the above sites for development in the future. My grounds for objection are as follows:-

1. They are all in the green belt. See Section 79 of the National Planning Policy Framework.
2. Their developmant will lead to the joining of Rawdon with Horsforth i.e. suburban sprawl.
3. Your core strategy has overestimated the amount of houses needed within the next fifteen years and there is no necessity to consider green belt land for development.

I trust you will amend these proposals as a result of this consultation.

Yours faithfully,

J.Jowett.
