DRAFT CONSULTATION.

Dear Sir,

RE. SITES H62-12 H63-2 H63-3 H63-4 H62-41 & H62-43

I refer to proposals to allocate the above sites for housing, all of which are, or should be protected as they are already designated Green Belt by Leeds' own Core Strategy. These plans appear to ignore Leeds' Core Strategy regarding Green Belt, and are also inconsistent with the NPPF. Green Belt boundaries can only be altered in exceptional or special circumstances, and housing need is neither exceptional nor special.

Building on SITES H62-12 H63-2 H63-3 & H641. This would obliterate the green space between Rawdon and Woodfirth, again contrary to NPPF. We need our Green Belt to protect against non-stop urban sprawl. I have lived in Rawdon & over 40 years. I, my family and friends have used and treasured the quiet, green, life-enhancing open spaces so near to our homes.

Rawdon simply could not sustain the number of units proposed by Leeds. Figures based I am sure on out-dated statistics. Re. do the sums, leave Green Belt alone and build on Brownfield sites.

Yours,
